

Session Handoff — Website Remediation

Date: Tuesday, June 9, 2026

Context: Pre-Thursday calibration before Susan Blue / CSG meeting June 11, 2026

Next session priority: Items 2–6 from the June 8 handoff

SESSION SUMMARY

Short focused session. One high-priority item completed and deployed. One high-priority item deferred by design. Session handoff document from June 8 reviewed and confirmed as the active task list.

COMPLETED THIS SESSION

Item 1 — “Proprietary Research Discipline” Language — DONE AND LIVE

File changed: `index.html` (was `index-5-29-26.html`) **Deployed:** Yes — pushed to GitHub, confirmed live

What changed:

Old language (removed):

“Organizational Meaning Science™ is a proprietary research discipline — not a methodology borrowed from elsewhere, adapted, or rebranded. It was developed to address a gap that decades of organizational work made impossible to ignore.”

New language (live):

“Organizational Meaning Science™ is the discipline at the foundation of this work — developed through three decades of cross-context practice and documented in working papers published on SSRN. Peer-reviewed validation is in active development. It was developed to address a gap that decades of organizational work made impossible to ignore.”

Why it matters: Bruce Cohen is a 23-year compliance officer at CSG. “Proprietary research discipline” without peer-reviewed citation backing creates credibility risk with sophisticated buyers. The new language is factually accurate, verifiable, and matches the calibrated language in Bruce Brief v1.9 and Susan Brief v1.2.

DEFERRED THIS SESSION

Item 2 — ITES Demo URL (“assessment” language) — DEFERRED TO POST-THURSDAY

Decision: Path B (keep the demo, change the URL) — but NOT before Thursday.

Joan’s reasoning: The URL change risks instability two days before a major meeting. The current demo at `ites-assessment.onrender.com` works correctly. The word “assessment” in the URL is a backend detail that Susan and Bruce are unlikely to notice or scrutinize. The IP risk is already low — the demo ends with “contact me for final results” so no instrument data is exposed.

Post-Thursday action: Evaluate renaming the Render service to `ites-index.onrender.com` or resolving `ites.noesperastudio.com` subdomain certificate (CAA record was fixed in April; certificate may need another attempt).

Current URL status:

- `ites-assessment.onrender.com` — live and working 
 - `ites.noesperastudio.com` — certificate still unresolved 
 - Button text on homepage: “Take the ITES™ Index” — canonical 
 - Subhead: “10 minutes · Confidential · Immediate results” 
-

ACTIVE TASK LIST (from June 8 handoff)

HIGH PRIORITY — Pre-Thursday June 11

- Item 1 — Remove “proprietary research discipline” language  DONE
- Item 2 — ITES URL / “assessment” language — DEFERRED to post-Thursday

MEDIUM PRIORITY — Post-Susan

- Item 3 — Add Intent Realization Layer™ and AI-Assisted Interpretive Analysis Layer™ to footer trademark/patent list (AFTER Wednesday June 10 patent filing — confirm “patent pending” language with attorney first)
- Item 4 — Align OrganizationalMeaningScience.org constructs with canonical platform vocabulary (IV/SC/IA/MC/PIS/IC, Four Climate States, Five Interpretive Clusters)

LOW PRIORITY — Post-Susan

- Item 5 — Add Leadership Interpretive Gap™ definition to website Meaning Radar feature description and Q&A reference material
 - Item 6 — Full “assessment” language audit across both websites (noesperastudio.com and organizationalmeaningscience.org) — replace with “instrument,” “lens,” “Index,” or “inventory” per canonical vocabulary decision June 8
-

CURRENT LIVE SITE STATE

noesperastudio.com — confirmed live as of June 9, 2026

Nav (mobile confirmed via screenshot):

- Home
- DNA Workshop Suite™ (dropdown: Brand DNA™, Discovery, Synthesis, Articulation)
- Full Practice Suite
- Research & Perspectives
- Leadership Through the Meaning Lens
- ITES™ Index → ites-assessment.onrender.com
- About
- Let’s Talk (gold)

Homepage key language:

- Hero: “Your organization is full of intelligent people making decisions based on what they *think* is happening.” 
- OMS™ description: Updated to calibrated language 
- ITES™ demo: “Take the ITES™ Index” → ites-assessment.onrender.com 

Footer trademark language (current — pre-Wednesday filing):

“Organizational Meaning Science™, DNA Workshop Suite™, Meaning Radar™, ITES™, and Meaning Architecture System™ are trademarks of Noespera Studio, LLC. Meaning Architecture System™ and ITES™ are patent pending. Additional filings in progress.”

Footer trademark language (to deploy AFTER Wednesday June 10 filing):

“Organizational Meaning Science™, DNA Workshop Suite™, Meaning Radar™, ITES™, Meaning Architecture System™, Intent Realization Layer™, and AI-Assisted Interpretive Analysis Layer™ are trademarks of Noespera Studio, LLC. Meaning Architecture System™, ITES™, Intent Realization Layer™, and AI-Assisted Interpretive Analysis Layer™ are patent pending.”

CANONICAL VOCABULARY REFERENCE

Canonical	Deprecated
Instrument / lens / Index / inventory	assessment
IV / SC / IA / MC / PIS / IC	Old dimension names
Four Climate States: Aligned / Variance / Fragmented / Strain	—
Five Interpretive Clusters: Anchored / Searching / Fragmenting / Withdrawn / Self-Anchored	—

Patent pending as of Wednesday June 10 (pending filing confirmation):

- ITES™ 
- Meaning Architecture System™ 
- Intent Realization Layer™ (Wednesday)
- AI-Assisted Interpretive Analysis Layer™ (Wednesday)

REFERENCE DOCUMENTS

- Bruce Brief v1.9 — June 11 leave-behind, calibrated IP, subject-corrected, AI layer reframed

- Susan Brief v1.2 — June 11 leave-behind, AI architectural discipline visible
 - ITES Dimension Bands Reference v2 — canonical six dimensions with thresholds
 - Nomenclature Truth Table v1.0 — April 20; v2.0 planned post-Susan
 - Security & Compliance Review — June 4, internal Joan + Chance
-

THURSDAY JUNE 11 MEETING

Susan Blue — CEO and owner of CSG (behavioral health system, 19 counties) **Bruce Cohen** — 23-year compliance officer at CSG (reads carefully — IP language matters)

Website is calibrated for this audience as of tonight. Item 1 complete. No other website changes needed before Thursday.

Session Handoff — June 9, 2026 Noespera Studio, LLC · Applied Organizational Meaning Science™
